

CA ZAMBIA

PRACTICAL TRAINING COMPETENCE FRAMEWORK

1.0 INTRODUCTION

1.1 ZICA's Vision and Mission Statement

ZICA's vision is, "To be a globally respected professional accountancy organisation".

This vision is translated into the following mission statement:

"To protect public interest by upholding the highest professional standards in accountancy education and practice"

In the implementation of this Mission ZICA Council and Secretariat are governed or regulated by the following ethos and values:

- **1. Integrity:** We are resolved to be honest and truthful in all our dealings with our stakeholders.
- 2. Customer Centric: We are customer focused.
- **3. Accountability:** We are answerable for our activities and take full responsibility for our actions.
- **4. Excellence**: We strive to be outstanding in everything we do in order to ensure quality service delivery.
- **5. Innovation:** We adopt the best business transformation initiatives in order to ensure quality service delivery.
- **6. Professionalism:** we provide a level of excellence or competence that is expected of a professional.

1.2 Practical Experience Requirements of IFAC

The International Federation of Accountants (IFAC) is a global organisation for the accountancy profession with 155 member organisations (of which ZICA is one) in 113 countries. IFAC members represent 2.4 million accountants employed in public practice, industry and commerce, government and academe.

IFAC's purpose is to serve the public interest and contribute to the strengthening of the international economy by developing the global accountancy profession, establishing high quality standards and promoting international convergence of standards.

IFAC's International Education Standard IES 5: Initial Professional Development – Practical Experience, prescribes the practical experience IFAC member bodies should require their members to obtain before qualification as professional accountants. The aim of IES 5 is to ensure that candidates seeking to qualify as professional accountants have acquired the practical experience considered appropriate at the time of qualification to function as competent professional accountants.

IFAC states that "the period of practical experience in performing the work of professional accountants should be a part of the pre-qualification program. This

period should be long enough and intensive enough to permit candidates to demonstrate they have gained the professional knowledge, professional skills, and professional values, ethics and attitudes required for performing their work with professional competence and for continuing to grow throughout their careers. The period of practical experience should be a minimum of three years".

On Monitoring and Control, IFAC requires that "the member body and/or regulatory authority should ensure that the practical experience candidates have gained is acceptable. Experience leading to qualification as a professional accountant should be conducted under the direction of a mentor who is an experienced member of an IFAC member body. For a program of practical experience to be effective, it is necessary for the professional body or regulatory authority, the trainee, mentor and the employer to work together. The program of practical experience should be mutually beneficial to both the trainee and the employer and be developed together. A record of the practical experience gained should be reviewed periodically by the mentor".

Specifically, IFAC sets out the following steps that professional bodies should take:

- a) establishing a monitoring system, normally on a sampling basis, that provides for monitoring and reporting of the practical experience obtained;
- b) providing detailed written guidance for employers, mentors and trainees regarding the program of practical experience and their roles and responsibilities;
- c) establishing a mechanism for approving employers as suitable for providing the appropriate experience for trainees;
- d) assessing and approving the practical experience environment before commencement of experience. (For example, the nature and scope of practical experience and the training arrangements of employers need to be reviewed to ensure that trainees would receive proper direction, supervision, mentoring, counselling and evaluation);
- e) assessing, prior to membership, the practical experience gained on the basis of written submissions possibly supported by oral submissions made by trainees appropriately supported;
- f) providing feedback to trainees and certifying when competences have been achieved;
- g) monitoring employers and mentors previously approved. The review may advise on areas that need improvement or may recommend that approval be withdrawn if conditions have changed to the extent that relevant experience criteria are not being met;
- h) establishing a system of periodic reporting to cover changes, if any, in the nature, scope and content of the trainees' practical experience if it is impractical to visit all approved employers; and
- i) undertaking a periodic study of the competences required by professional accountants to help to ensure that the practical experience gained is relevant and appropriate.

2.0 CA ZAMBIA

2.1 Components of CA Zambia

The Chartered Accountant (CA) qualification combines two components:

- completion of CA Zambia's three level examinations and
- 3 years full time equivalent Practical Experience, under the guidance of a mentor who must be a Chartered Accountant.

2.2 The elements of Practical Experience

The practical experience component of the CA Zambia programme has three elements:

- Three years (full time equivalent) employment in a relevant accounting role with an approved employer.
- Mentored by a Chartered Accountant, who is a member of ZiCA or other Institutes of Chartered Accountants approved by ZiCA.
- Demonstration of the required levels of technical and non-technical competencies

3.0 TECHNICAL AND NON-TECHNICAL COMPENTENCIES

3.1 What is Competence?

The International Federation of Accountants (IFAC) defines competency as:

'the ability to perform a work role or task to a demonstrated defined standard. To meet a competency standard, the activity is performed under specified conditions to the specified standard of performance'

3.2 Competence framework

ZiCA has developed a competence framework in the CA Zambia syllabus to define the level of competence required to qualify as a Chartered Accountant and become member of ZiCA.

Level 1 - Carry out work tasks that are characterized by low leading ambiguity, complexity, and uncertainty	
Level 2 - Intermediate	Carry out work tasks that are characterized by moderate levels of ambiguity, complexity, and uncertainty.
Level 3 - Advanced	Carry out work tasks that are characterized by high levels of ambiguity, complexity, and uncertainty

Within the competence framework, ZiCA identifies a range of technical and non-technical competencies. The achievement of all competencies will be recorded by the candidate and validated by the mentor in the ZiCA assessment tool.

3.3 Technical Competencies

Technical competencies are prescribed in nine areas of accounting work. The technical competencies have been grouped between core and non-core accounting areas.

To become a Chartered Accountant, a candidate will need to demonstrate all the competencies in at least two (2) of the following nine technical areas at the intermediate level i.e. level 2. The two (2) selected technical competencies must include at least one (1) core competency.

Core

- 1. Financial Accounting and Reporting
- 2. Audit and Assurance
- 3. Taxation
- 4. Management Accounting
- 5. Financial Management

Non-core

- 6. Strategic Business Analysis
- 7. Information Technology
- 8. Accounting Education
- 9. Financial Advice

3.4 Non-Technical Competencies

To become a Chartered Accountant, a candidate will also need to demonstrate competency in all of the following 6 non-technical areas:

- 1. Teamwork and leadership
- 2. Organisational skills
- 3. Analytical, research and evaluation
- 4. Intellectual skills
- 5. Exercising ethical and professional behaviour
- 6. Communication and interpersonal skills

3.5 Prescribed Tasks for each Competence

The competencies include descriptions of tasks underlying each competency statement. These can be used as performance criteria to assess achievement against the competency statement. Candidates are expected to achieve all tasks for each of their chosen areas at the required level.

3.5.1 **Technical Competencies**

FINANCIAL ACCOUNTING AND REPORTING

Competencies		Tasks	
FAR 1	Apply accounting principles to record and account for	FAR 1.1	Evaluates source documentation and information
	financial transactions and events	FAR 1.2	Evaluates and accounts for transactions and events using applicable accounting principles and International Financial Reporting Standards (IFRSs) or other relevant standards
		FAR 1.3	Prepares reconciliations of financial information, such as bank reconciliations, payables reconciliations, receivables reconciliations and other general ledger reconciliations
		FAR 1.4	Prepares an extended Trial balance
FAR 2	Evaluate the appropriateness of accounting policies and frameworks	FAR 2.1	Evaluates the appropriateness of the accounting framework based on the entity's financial reporting needs.
		FAR 2.2	Evaluates accounting policies in accordance with the appropriate accounting framework
FAR 3	Prepares or evaluates financial statements and accompanying notes	FAR 3.1	Prepares or evaluates financial statements for single entities or for groups in accordance with the IFRSs or other relevant standards
		FAR 3.2	Prepares or evaluates notes to the financial statements for single entities or for groups in accordance with the IFRSs or other relevant standards
		FAR 3.3	Prepares or evaluates the non-financial information in the annual financial statements, for example Directors' Report, Corporate Governance Report, Sustainability Report etc.
FAR 4	Analyse and interpret financial statements and non-financial information	FAR 4.1	Calculates the profitability, liquidity, efficiency (activity) and solvency ratios
	(such as sustainability report) for entities	FAR 4.1	Based on the ratios calculated in FAR 4.1, evaluates the performance, efficiency (activity), solvency and liquidity ratios from the financial statements and

C	ompetencies	Tasks	
AA 1	Evaluate the legal, regulatory, technical, professional and ethical issues involved with audit	AA 1.1	Advises on the technical, professional, and ethical issues that may arise during audit and assurance engagements
	and assurance engagements	AA 1.2	Evaluates extent of legal liability including criminal and civil law liability and professional negligence issues and how they can be mitigated.
AA 2	Apply best practice in acceptance of audit and assurance engagement	AA 2.1	Analyses the legal, professional and ethical issues during the acceptance of audit and assurance engagements
		AA 2.2	Analyses the potential issues that determine the nature, scope and extent of an audit or assurance engagement
		AA 2.3	Evaluates the considerations for an auditor of risk issues identified prior to accepting an engagement
		AA 2.4	Drafts or evaluates an appropriate engagement letter based on the engagement terms including those agreed with a client and those imposed by laws and regulations
AA 3	Apply best practice in management of audit and	AA 3.1	Plans resource needs of an audit or assurance engagement
	assurance engagement	AA 3.2	Evaluates appropriate quality control measures at firm level and during the course of an audit or assurance engagement.
		AA 3.3	Evaluates the extent to which audit and assurance functions of a client can be used or relied upon.
		AA 3.4	Evaluates appropriate monitoring and review procedures to effectively manage an audit or assurance engagement.
AA 4	Plan audit and assurance assignments	AA 4.1	Obtains understanding of the client's business and environment and documents this information
		AA 4.2	Obtains understanding of the client's internal controls and documents the internal controls
		AA 4.3	Applies analytical procedures used to plan an audit or assurance engagement

risks i.e. inherent risk, control ri and detection risk AA 4.5 Evaluates the appropriateness of going concern assumption AA 4.6 Evaluates the client's business risks AA 4.7 Evaluates the risk of mater misstatement at an overall finance statement level AA 4.7 Evaluate the risk of mater misstatement at the assertion level classes of transactions, according balances and disclosures AA 4.8 Evaluates the risks arising from accounting manipulation, error, from or other irregularities AA 4.9 Identifies and evaluates factors the affect the planning materiality AA 4.10 Calculates and documents the level planning materiality for an autengagement AA 4.11 Designs or selects appropriate tests

TA 6	Advises on appropriate tax planning issues for individuals and legal entities	TA 6.1	Makes appropriate recommendations on the measures to minimise or defer tax liabilities for individuals and legal entities

Compete	encies	Tasks	
MA 1	Apply appropriate costing methods	MA 1.1	Records costs for labour, material and overheads
		MA 1.2	Performs cost classification
		MA 1.3	Applies different costing methods to ascertain the cost products and services, including inventory valuation methods
MA 2	Apply costing techniques to support management decision making	MA 2.1	Applies appropriate costing techniques to analyze cost behaviour and the drivers of costs
		MA 2.2	Performs cost volume profit and break even analyses using both numerical and graphical techniques to provide relevant information for management decision making.
		MA 2.3	Analyses non-financial data to provide relevant information for management decision making.
		MA 2.4	Makes recommendations on business decisions, e.g. make or buy, introduction or discontinuation of a business line, acceptance or rejection of a project, etc.
		MA 2.5	Prepares and presents reports to support management decision making
MA 3	Apply managerial budgetary control systems	MA 3.1	Evaluates the different types of budgets that may be employed in organisations
		MA 3.2	Prepares or evaluates the budget using the specific organisation process
		MA 3.3	Applies flexible budgeting techniques to a given scenario
		MA 3.4	Compares and analyses the actual results against the budget (i.e.

			performs variance analysis)
		MA 3.5	Prepares variance reports and advises management on the outcomes of the variance analysis
MA 4	Advise management on suitable product or service	MA 4.1	Calculates product and service prices using different costing methods
	pricing	MA 4.2	Advises management upon suitable pricing strategies
MA 5	Evaluate the performance of products and business segments.	MA 5.1	Evaluate appropriate performance measures to support strategic decisions, or entity management decisions, or divisional management decisions
		MA 5.2	Evaluates suitable monitoring and control mechanisms on strategic performance choice, or entity performance choice, or divisional performance choice.
		MA 5.3	Evaluates IT and human resources to support performance management
		MA 5.4	Prepares and presents performance management reports

	Competencies	Tasks	
FM 1	Evaluate financing options	FM 1.1	Identifies and selects sources of finance
	for an organisation		taking into account company policy and business strategy
		FM 1.2	Evaluates the costs of different
			financing methods
		FM 1.3	Evaluates a financial proposal or a
		EM 1 4	business plan
		FM 1.4	Based on the evaluation in FM 1.2 and 1.3 above, advises on the suitable
			financing method
FM 2	Appraise investments	FM 2.1	Assesses appropriate investment
			appraisal techniques based on a given business scenario
		FM 2.2	Assesses appropriate discount factors
			or rates used to undertake an
			investment appraisal based on a given business scenario, data and
			information.
		FM 2.3	Applies the investment appraisal
			methods taking into account inflation
		E) (2 4	and tax
